

# ROCKS RUNDOWN

Summer 2025, Week 7 Edition

## DIRECTOR'S CORNER

As we wrap up another incredible summer, I'm left in awe from all that we have enjoyed, accomplished, and celebrated together. Each summer at camp feels like a little miracle. It's hard to put into words what happens here, but if you've ever seen a camper conquer their fear of the big swing, or watched a group of campers cheer each other on during Boker Tov, or heard the whispers of friendship being built over lunch tables and late-afternoon games, you know — there's a certain magic at play. This summer, that magic was everywhere. We saw campers take bold steps to try something new, embrace challenges with resilience, and grow not just as individuals, but as part of a larger, caring community. Whether it was the obvious outward influence camp has as campers and staff make new friends, or the lesser understood inner magic as campers and staff found the courage to be their best selves — these moments are what make camp so much more than just a campsite and busses and activities. Simply put: Camp is a transformative experience. And once it's in you, it never really leaves. To all of our incredible camp families — thank you. Thank you for trusting us, for cheering us on, and for embracing the power of camp. Your support, partnership, and belief in what we do are the reasons we're able to create such an enriching, joyful, and safe space for our campers to grow. And now, as we close on Summer 2025, we can't help but start counting the days... because we know what's waiting for us. Only 318 days until we're all back in the gym together once again shouting "BOKER TOV CAMP YACHAD!"

**850 campers, 350 staff, 34 magical summer days... Thanks for it all Camp Yachad!**
